Available in four sizes in the classic "knife" shape, they can be put up and dismantled very quickly. The flag kit, enclosed in a strong polyester bag with zip, includes the screw ideal to fix the flag in soft ground such as grass, snow, sand and soil. Various metal bases are available, studied for different uses and fit for solid surfaces as concrete and asphalt. You can also order just the flag.

- Large and small quantities
- Aluminium anodized structure
- Spring steel flexible tip

- Quick and easy to assemble
- Packaging designed for easy storage
- Customized flag

The Easy-Flag Drop is a flag with the same features of the classic one but with a "drop shaped" flag, 100% made of polyester. Its complete kit is delivered in a strong polyester bag with a zip including the screw to fix it on soft grounds, advertising flag, anodized aluminium poles and flexible spring steel tip. Thanks to its structure it stays perfectly tight even with no wind. You can also order just the flag.
