

# OUR SYMBOLS

Marking flags are an indispensable tool for every outdoor event. Delimiting several areas of the race and pointing to the path is important for the security. For this reason ElleErre has designed and built this versatile marking flagship, easy to position and customizable at 100%.

- Standard size 23 x 33 cm
- Wood pole

## REFLECTIVE FLAGS

The marking reflective flags are an indispensable tool for night events and competitions. Marking the route when it is dark is a matter of security. For this reason, ElleErre has designed and built this versatile 100% flagship, easy-to-locate and customizable flag, which has an high visibility tape.

- Digital printing
- A reflective tape

- Nautical polyester fabric
- Beech wood striped

- Standard size 23 x 33 cm
- Ability to customize the measurements

## CAR FLAG

Car flags are produced internally by ElleErre. Car flags are an economic and innovative means of communication. Car flags attract attention and capture the interest of those who see them.

Plastic car holder

## HANDWAVING FLAGS

The handwaving flags during sport events are the best tool for visibility. Flags for fans and supporters are cheap and innovative. Swinging at the passage of athletes or on arrival is a pleasure for adults and children. Supporting flags, like all flags produced by ElleErre, are made of 100% nautical polyester, European flag-making high-grade material; in addition to being a 100% recyclable material, it's unique as a print-out and time-efficient.

- Digital printing
- Nautical polyester fabric
- Wooden pole
