Certified

Headband are an important element for those who do sports, hold hair, sweat and dignity. For this reason the Headband are stealing and are a gadget field in all races. Organizers can personalize it with the logo of the event, sponsors, with the graphics they prefer. The headband we produce is elasticized in polyester fabric, comfortable and suitable for staying stable even during movement and physical activity.

From this year ElleErre has the possibility to make it even in fluo colors.

- Customized
- Customized with Fluo colors
- Size: 10x48cm
- Elastic material

The ElleErre thermal head band was developed for performing running, cycling or other activities after the temperature has gotten colder. It is highly insulating thanks its ultra-soft microfiber layer making this an essential accessory for your fall and winter outdoor activities.

The thermal headband by ElleErre has a plush and inviting interior that is soft to the touch promoting maximum comfort against your skin.

The fabric is highly elastic, breathable, has an elevated resistance to pilling and is machine washable.
