ElleErre produces advertising inflatable to make your event exclusive. The inflatables can be customized in shape, colour and size. They are printed on certified waterproof and fireproof polyester. It is possible to print any graphic or picture directly on the structure with no limits of colours. It is also possible to install your banner/logos through the fizing velcro stripes available on standard colour arches. The silent electrical powered engine incorporated in the structure and continuously pumps air into the inflatables, keeping them perfectly tight.

Inflatable arch made of Class1 fireproof polyester, with aeronautic seams, together with anchoring ropes, optional Velcro to fix the banners (arch without customizing), fan and bag.

- Different shapes and sizes
- 100% customizing
- Silent engine

The standard color arch allows banners and logos to be applied quickly and easily thanks to a practical Velcro system. This solution makes it possible to update the customization whenever needed, without replacing the entire inflatable advertising structure, ensuring significant savings in both costs and materials.

The motor, silent and integrated into the structure, is designed to operate with a continuous power supply. By constantly channeling air inside the inflatable, it ensures optimal tension and perfect stability during use.

The inflatable arch, made of Class 1 fireproof polyester and finished with aeronautic seams to ensure maximum strength and durability, is supplied as a complete kit. The set includes anchoring ropes, an internal fan, a Velcro system for banner application, and a practical carrying bag for easy and immediate use.

- Interchangeable custom banners
