The Easy-Flag Square is a promotional flag with a squared design that retains the same sturdy structure as the Classic version, offering a more contemporary look. Made from 100% polyester, it is supplied as a complete kit in a practical and durable polyester zippered carry bag. The set includes: ground screw anchor for soft soil, printed flag and anodized aluminum poles. Thanks to its rectangular structure, the sail remains perfectly tensioned even in the absence of wind, ensuring maximum visibility and a consistently strong visual impact

- Easy and quick to assemble
